

6271CV TouchCenter

COLOR GRAPHIC TOUCHSCREEN KEYPAD WITH VOICE

With its large, color touchscreen display that can be customized for the dealer or end-user, Honeywell's 6271CV color graphical touchscreen keypad with voice helps dealers close more sales and increase customer retention. Dealers can increase their advertising exposure by displaying their company name or logo on the homescreen and increase end-user referrals by putting a picture and name of the homeowner's family on a bright, colorful interface.

The 6271CV is simple to use, with menu-driven prompts and icons guiding end-users every step of the way. Voice announcement of system status and zone information adds an extra level of protection and peace of mind. The convenient message center keeps family members in touch by letting them record and playback messages for one another.

FEATURES

- Customizable homescreen for dealers or end-users*
- External MMC card slot for fast homescreen customization or software upgrades
- Intuitive touchscreen display with icons and menu driven prompts
- Voice announcement of zone # and type of emergency during alarm situation and system status during normal operation
- Family message center
 - Record and playback messages for family members
 - Over two minutes of recordable time
 - Blinking LED indicates a message has been sent
- Entry/Exit Delay countdown displayed
- Authorized end-user can add or delete user codes
- View entire zone list with status of each zone
- End-user can quickly bypass zones from zone list

FEATURES

Event Log

TouchCenter conveniently displays the most recent actions involving system use. A press on the touchscreen is all it takes to access the event log, letting users easily:

- View when the system was used and who used it
- Track when workers and temporary guests use the system
- Keep tabs on family members (e.g., checking if a child has armed the system upon returning home from school)
- Utilize the TouchCenter as an effective business management tool (e.g., viewing openings and closings)

Keypad

- Emulation of standard 2x16 alpha LCD keypad display
- Diagnostics allows testing of:
 - LCD display
 - Audio
 - LED indicators

Compatibility

Control Panel	Max. No. of 6270/6271
